How I Love Recess!

Kindergarten Activities

Easel painting and finger painting are favorite activities of the kindergarten class at Fairview.

During the Christmas season we had great fun making a reindeer with papier maché, a sled, and a stuffed Santa Claus. Making Christmas angels from detergent bottles was our project for our mother's Christmas gift.

Numbers from one to ten are written and the concepts of each are learned.

Rhyming words and beginning sounds are a part of our reading readiness work.

We have a rhythm band and everyone gets very excited on the days we have band.

Creative expressions to rhythm records are great fun. Sometimes we are fairies, giants, elephants, or any one of a number of other animals.

The kindergarten room at Alta is always filled with numerous activities. The children may be modeling snowmen from clay, painting at the easel, singing, expressing themselves in finger plays or rhymes, or working in their reading readiness workbooks.

In the Autumn our units include: Living in the School, Nursery Rhymes, Transportation, Pets, Halloween, Thanksgiving, and various Autumn activities.

Winter finds everyone busy on such units as: Christmas, The Playhouse, Workers We Know, Winter Activities, The Circus, St. Valentine's Day, and the Patriotic Holidays.

During the Spring our discussions include: The Farm, The Garden, Easter, Mother's Day, and May Day.

First Grade Activities

This is the first year for first and second grades to be separated at Fairview. It has given more time for special help and activity.

Besides a full schedule of curricular work, we were a part of the November Community program.

We dramatized three stories using stick puppets, recited three poems in chorus, and sang songs.

By the end of the year we will have read the basic pre-primers, primer, two grade--one readers plus supplementary readers.

Phonics will have given us the ability to recognize initial and final consonants, rhyming words, and sounding simple new words.

Combinations in numbers have been learned by recognition of groups with a single eye movement.

Animals, plants, earth, weather, energy and other things around us have made interesting science talk.

"Circles and straight lines please" was the familiar chant heard by our teacher during writing class. It wasn't always easy.

First and Second Grade Activities

An exciting day was had when the Alta first graders began their pre-primers. The boys and girls learned many words throughout the year. They enjoyed reading about the experiences of Dick, Jane, and Sally.

The first grade developed readiness for the general use of numbers and the number system in their number work. They also learned the basic number facts, measuring, and the use of money.

The first step in writing was learning the correct formation of each letter. The second step was forming words and sentences. The last step was writing stories.

Look and Learn was the title of our science book. The units we discussed were plants, animals, machines, seasons, and months.

Our social studies work was centered around the family and the school.

Arithmetic, reading, spelling, language, social studies and science plus art, music, and physical education keeps the Fairview second graders very busy this year. Now that we have added cursive writing the second semester we feel that we are growing up fast.

Science is fun this year. We especially enjoyed the unit on "Earth and Universe." Experimenting with magnets has also proven very interesting.

In arithmetic the basic number ideas are learned by a sequence of pictures so that we can imagine the action and eventually learn the symbols.

In November we enjoyed presenting the playlet, "The Fairy Bookshelf," at Community Night in observance of National Book Week. We also took part in the Christmas program in December.

Second Grade Activities

Fifty-seven Alta second graders have enjoyed a most interesting and enjoyable year. Reading and phonics have helped them develop their structural and phonetic analysis, and improve their ability in independent reading.

In arithmetic we learn to add, subtract, and multiply numbers to twenty. We also study measures, money, telling time, shapes, how to build to tens, and rational and ordinal counting.

An eventful experience is changing from manuscript to cursive writing.

Social studies, health, science, spelling, language, music, physical education and art help "round out" the second grade curriculum.

The highlight of the year was our train ride to Cherokee, and a trip through the Planetarium.

Several times during the year the entire class has received treats because they all got a perfect score in spelling tests. Language was enlightened through the use of the telezonia kit which was provided by the Bell Telephone Company.

We enjoyed our Halloween, Christmas, and Valentine parties. Each of us took our turn serving and planning for one of the parties held during the year. The room mothers who assisted us this year for various activities were: Mrs. Jack Disscher; Mrs. Dick Adams; Mrs. Robert Magnuson; and Mrs. Eugene Quirk.

Third Grade Activities

The Alta third grade has an enrollment of twenty-two girls and eighteen boys. The highlights of our year have been trips to the dairy farm, grocery store, creamery, and newspaper office. These trips have helped to enrich our learning experiences in social studies. Arithmetic has been very challenging. We have learned to multiply and divide and have enjoyed practicing these processes through the use of flash card contests. Various plays and stories were dramatized throughout the year the part of our reading ac-

Third and Fourth Grade Activities

In the Fairview third grade arithmetic class the pupils learned the addition and subtraction facts, and learned how to carry and borrow with numbers. The fourth grade pupils learned their multiplication and division facts and worked with larger numbers in multiplying and dividing. Racing with flash cards and working at the blackboard seemed to be enjoyable and helpful to both grades.

In third grade social studies class, we made a model town of Westport. Each student read a book and gave a report about Indians in preparation to making an Indian village. We also drew many pictures of the things that we studied in class. One of the projects made in the fourth grade was a Pueblo Indian village. After each unit was finished, the fourth graders drew a picture of the part they enjoyed most and wrote a short story about it. They also spent much time becoming better acquainted with maps and map studies.

In language art classes, both grades worked hard to be better readers; learned new words, their pronunciation and meaning; learned to divide words into syllables and to accent words; improved their ability to capitalize, punctuate, and spell.

Making "A Good Food Train" using the seven basic foods was one of the third grade projects in science and health class.

Other subjects that we had were music, art, and physical education.

Fourth Grade Activities

In the Alta fourth grade class this year, we have experienced many new learning adventures. In social studies we took a trip back to the time of Columbus to study the explorers who blazed trails for future pioneers. To make our journey more interesting, we wrote and produced plays about some of these men.

To understand how electricity is generated, we visited the Iowa Public Service plant near Alta. During our study of stars and planets, we took a trip to the planetarium in Cherokee.

Our most challenging accomplishment in arithmetic was learning the multiplication tables and becoming familiar with fractions.

Fifth Grade Activities

The Alta fifth grade groups have had several projects in correlation with the topics covered in the science and social studies subject areas. Reports were made on the planets, weather charts were completed, and biographical resumes were written about famous historical people who were so important in the formation of our United States. Supplementary map study was provided in the usage of the Weekly Reader Map Skills booklets.

In health, the study stressed both physical and mental health along with all of the aspects of safety.

Boardwork was the most enjoyable feature of arithmetic classes. We had the addition, subtraction, and multiplication of three-place numbers and long division by two-place numbers. Measurement, time zone, and graph problems were also given.

The language arts program featured story reviews and dramatizations, book talks, group discussions, parliamentary procedure, dictionary usage, learning the various parts of speech, and the development and extension of the reading and spelling vocabulary.

Sixth Grade Activities

Occupying every sixth grader's school days are the language arts (reading, written and oral English, spelling, writing), social studies (early civilizations and the eastern hemisphere), arithmetic, science-health-safety, physical education, art, vocal music, and that cherished but soon taken away tradition--recess. For many there are also instrumental lessons and Junior Band.

Spicing the curriculum are such activities as science experiments and demonstrations, talks by visitors to other countries, films, club meetings, musical programs, writing original verse, and creative art projects. Especially interesting has been the introduction of perspective in our drawings.

There are also three annual parties with entertainment and refreshments planned and provided by the sixth graders. These are held on or near Halloween and Valentine's Day, and the day Christmas vacation begins.

Two boys joined the sixth grade ranks during the school year--Richard Otto and Dennis Iosty. Roger Lundberg moved away.

Junior Band

This year's Junior Band numbered sixty-six members, the largest it has ever been.

A marching band was formed and rehearsed for the first nine weeks of school. Linda McGowan was the drum majorette and her assistant was Shari Christensen. The highlight of their fall season was the halftime appearance at our last home football game.

Seventy-eight fifth, sixth, seventh, and eighth graders competed in the annual Junior High and Grade School Solo Contest held in Storm Lake on March 9.

A spring concert was given by the Junior Concert Band.

Besides Mr. Schive, their regular director, the band had two other conductors. Mr. James Inman and Mr. Melvin Dewey worked with the band for eight weeks. They are student teachers from Buena Vista College in Storm Lake. We enjoyed having them with us.

Junior High Activities

This year in Junior High we have been very busy and have had lots of fun.

The eighth grade class spent much time and work preparing their musical comedy, "Tom Sawyer." In music class we have made notebooks containing newspaper articles related to music, and articles we have written about things we have studied in music. Several of us are in special singing groups which we enjoy very much.

Many of the boys participated in football, basketball, and track. The girls have studied cooking, grooming, home decorating, and sewing in home economics.

We had two roller-skating parties, a Thanksgiving party, and a Christmas party. At the end of the year we had our traditional picnic.

In seventh grade we study math, science, literature, spelling, English, geography, and Iowa History. Eighth grade subjects are: math, science, literature, spelling, English, U.S. History, and civics.

We have enjoyed Junior High. Thanks to our teachers we are well prepared for and looking forward to our freshman year.

"What's there to be afraid of?" they thought, "we're only leaping into a strange and unknown world of dating, dancing, parties, and new activities causing excitement and joy to the freshman class. The class float, "We'll Whip 'Em" stirred the freshmen on farther into the high school circle. Much to their displeasure, a forth place rating was given to the energetic class.

Homecoming attendants were Cynthia Bumann and

Orin Huseman. To the freshman, skating parties are the "most," hitting it off with two in a row. A Christmas party was also planned for the class.

Basic subjects were math, science, and English. All the girls were required to take home economics; the boys had a choice of industrial arts or agriculture. Sectioned classes were something new for the freshmen.

Going from the second floor to the third has elevated the morale of the sophomores.

Numerous subjects are available this year. Many have a choice of biology, algebra, home economics, typing, industrial arts, agriculture, and driver education. Approximately half of the sophomores took driver education during the summer in order to take more college preparatory courses during the school year. The first semester classes were divided evenly into English and literature. The second semester, the two classes were reversed.

The sophomores were enthusiastically given a skating party by the freshmen. We are now attempting to repay both the freshmen and the juniors for a enjoyable time. Members of the sophomore class will soon assist the juniors in the entertainment of the seniors at the Junior-Senior Prom. A number of the sophomores will be serving as waiters and waitresses at the Prom.

"They're Crusin' for a Brusin'" was the slogan of the third place sophomore float. Homecoming attendants were Jane Anderson and Roger Radke.

We're juniors now! And are now classified as "upperclassmen," so we think. We have finally attained that title, but have found that it is not all fun. Our studies take up much of our time. Too much, the juniors agree! There are many courses offered to us: homemaking, agriculture, industrial arts, shorthand, typing, geometry, chemistry, German, and the required English and United States History courses. Everyone is required to take four of these subjects and some of our more daring souls take five.

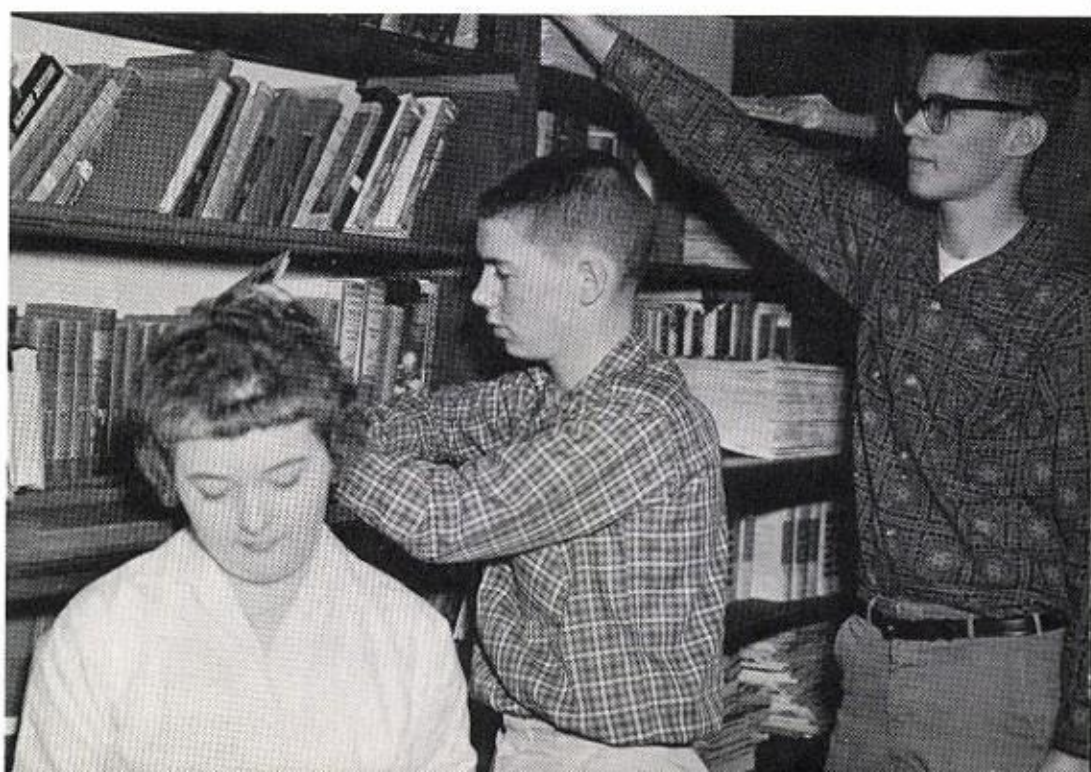

Then, if we still have a little time on our hands, there are extracurricular activities to rid us of our energy. The girls can participate in drill team, F.H.A., and G.R.A. For the boys, there is F.F.A., football, basketball, track, and baseball. The Cyclone Staff, Scarlet and Black Staff, German Club, Science Club, and Pep Club are offered to all of us. For those who are musically inclined, the Glee Clubs, Mixed Chorus, marching band, and concert band prove to be very rewarding and satisfying.

At the beginning of the school year, our class put together a float which received second place. Jene Anderson and Keith Endreson were homecoming attendants from our class. Everyone then worked hard for the success of our Junior Class Play, "Headin' for a Weddin'." Much time and money were spent on the last big event for the juniors, the Junior-Senior Prom. After a last week of panic, we settled down to a very enjoyable evening.

With a final rush, we found ourselves enjoying a much-looked-forward-to summer vacation.

Two On the Aisle

A musical program in the lighter vein, was presented on October 24. Music was selected from eight Broadway musicals. The numbers were staged with scenery and costumes. Students worked out many dances and routines for the show which was accompanied throughout by the mixed chorus in harmony with dance band accompaniment. The shows represented were: Pajama Game, Most Happy Fella, Kismet, Oklahoma!, Damn Yankees, The Music Man, and South Pacific.

A Tribute

We wish to give a special tribute to the band mothers for their outstanding work that they have contributed to the success of the music department.

The smorgasbord served as a fund raising project that made possible the purchase of a fine stereophonic record player.

The band mothers also made it possible for two high school students to attend summer music camp.

As a highlight of the year the annual band banquet was enjoyed by all. The music awards and two music scholarships were presented at this time.

Vocal Music Activities

The Christmas program this year was entitled THE STORY OF THE FIRST CHRISTMAS. The story from the Bible was read by Judy Anderson. Music was interpolated throughout by the Alta High School mixed chorus, the glee clubs and various small groups. The evening's program was highlighted by a series of luminous chalk drawings. These drawings were done by Mrs. Harry Melander while the audience watched.

1961-62 Football Season

The cyclones turned out to be a team full of surprises this year. After losing their first game to non-conference Holstein, the Alta squad jelled to earn a 6 and 1 record in the conference.

One of the biggest surprises was the spirit of the squad. Although they were slated to finish in the bottom half of the conference, the team took heart and dug in. The stubborn defense and fast, hard-hitting offense, together with their new found confidence proved to be the difference in this year's season.

The leaders in various departments were as follows: Defensive linebackers Dave Wolfe and Robert Radke led with 70 and 55 tackles respectively. Dave Wolfe was also the leading pass receiver, catching 19 passes for 214 yards. Robert Radke was the team's kicker averaging 41.5 yards per kick.

Paul Ruehmann was the leading passer, completing 33 of 69 attempts for 378 yards. He was also the team's punter, averaging 31.9 yards per punt.

Douglas Patten was Alta's leading rusher, gaining a total of 421 yards in 96 attempts for a 4.4 yards per carry average. Douglas was also Alta's leading scorer. He rushed for 7 touchdowns, passed for 2, and rushed for 5 extra points.

Game Summaries

ALTA 13; HOLSTEIN 26

In the season's opener, Alta came up on the short end of the score after a hard fought game. The first

touchdown for Alta came when Robert Radke streaked 53 yards on a pass from Ruehmann.

ALTA 33; SANBORN 0

Alta rolled to its first victory of the season. The alert defense and driving offense held Sanborn so tightly that they got in cyclone territory once once.

ALTA 7; SUTHERLAND 0

In one of this season's most exciting games Doug Patten returned the opening kick-off 70 yards to score the only touchdown of the game. In the last seconds with the Sutherland team threatening, Mike Johnston broke through the offense to recover a fumble.

ALTA 14; AURELIA 12

After trailing 12 to 0 at halftime, Alta stormed back to defeat our traditional rival in the last minute.

ALTA 7; HARTLEY 0

In one of the closest games of the season, Alta's defense stopped the opponents cold. The winning touchdown came in the third quarter when Doug Patten drove over from the two yard line.

ALTA 20; MILFORD 6

The tough defense and deceptive offense of Alta took Milford by surprise. The high point came when Dave Wolfe took a Milford fumble on the first bounce and ran 33 yards for a touchdown.

ALTA 27; PAULLINA 34

With Alta leading 20 to 13 at halftime on a touchdown by John Nordman, Alta held its own until the last play of the game when Paullina scored. This last play score not only cost the cyclones the game but a tie for the conference championship with Paullina.

1961-62 Basketball Season

The cyclones proved to be quite a surprise team during the past season. Not only did they finish third in the tough Sioux Valley Conference with a record of nine wins and five losses, but they also produced an overall winning record of fourteen wins and eight losses while advancing to the finals of the sectional tournament. The cyclones were forced to settle for second place in the county tournament as they lost to Albert City-Truesdale in an overtime.

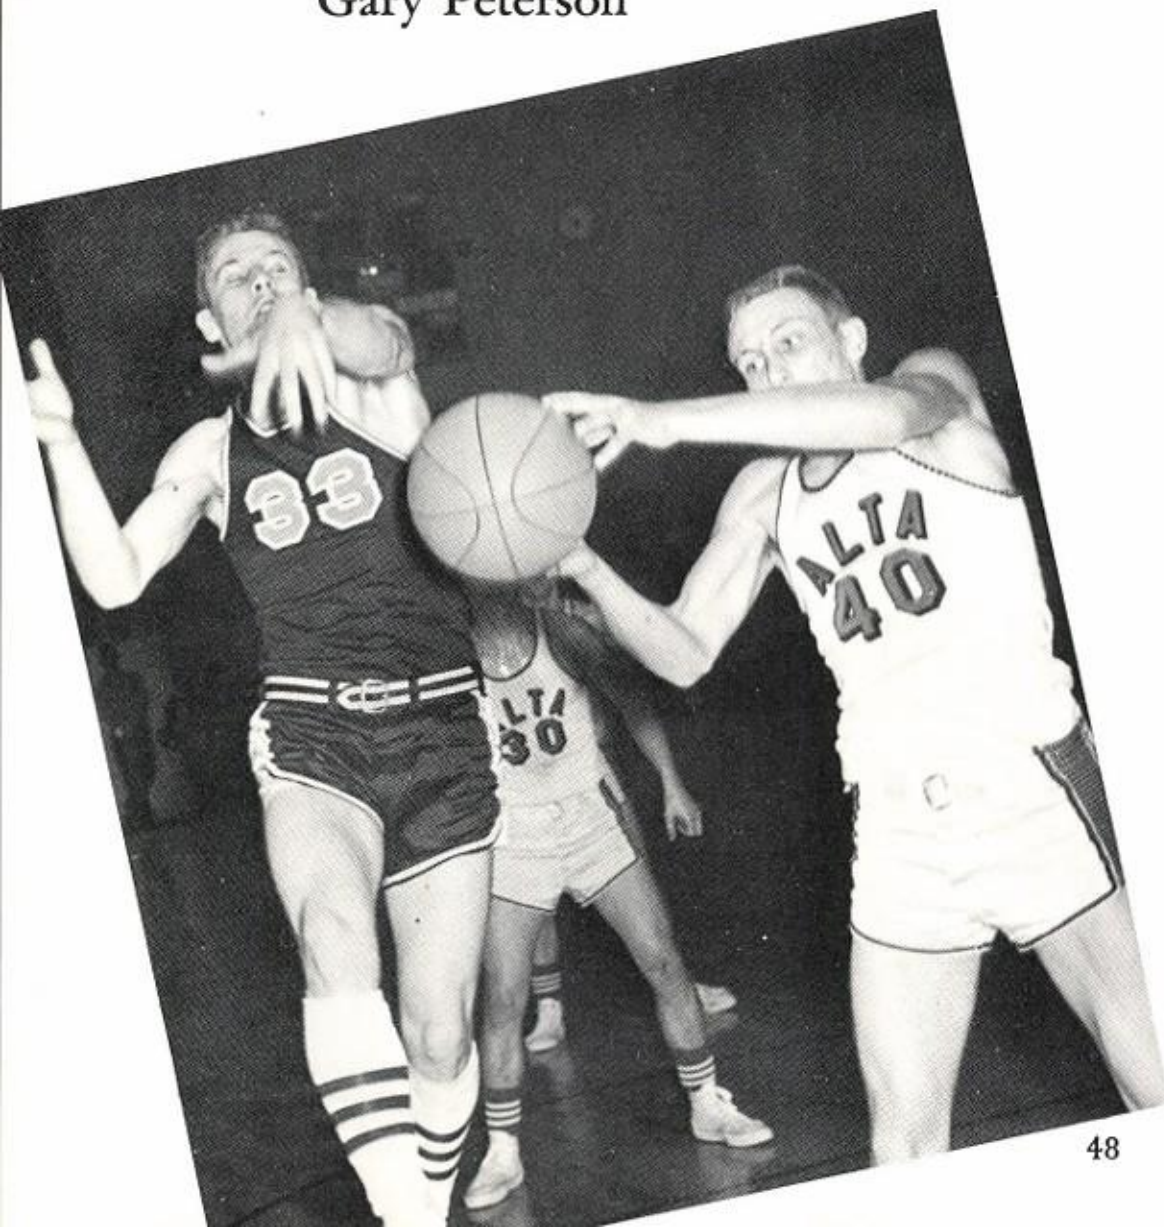

The season produced no "super-stars" but was the result of the combined efforts of the entire squad. Paul Ruehmann was the individual scoring lead with 387 points, and also gained a berth on the First All-Conference Team. Lichtenberg gained a berth on the Second Team All-Conference while pulling down 271 rebounds to lead that department and set a new school record. The old record was 241. Three other players--David Wolfe, Stanley Fredericks, and Gary Peterson--were named to the All-Conference Honorable Mention list while adding their efforts to the cause. Another record which fell was the rebound record. The "little" men had to scrap but were able to bring down 937 rebounds to surpass the previous high of 772.

Although the loss of six seniors via graduation will not go unnoticed, the "B" team, which compiled a winning season, eleven wins and six losses, may be able to supply individuals to fill the gaps left by departing seniors.

Cyclone Activities

Distribution of the 1962 Yearbooks ends another year of hard work on the part of the Yearbook Staff. With the help of our efficient editors, Janet Smith and Lizabeth Peters, it was a very successful year.

The annual Yearbook Dance was a success again this year. The highlight of the evening came with the crowning of Connie Langlet and Gary Peterson as Queen and King.

We wish to thank all those who had a part in making the 1962 Yearbook a success.

Scarlet and Black Activities

At the beginning of the second semester, a complete turnover was made in the staff with Dave Johnson remaining as editor.

Under the supervision of Mr. Skay, the staff tries to give a complete and accurate report of activities at school. There is a lot of work in organizing a paper and everyone is expected to carry his or her share of the work load.

Our thanks is extended to the Alta Advertiser for giving us a large amount of room in the weekly paper.

German Club Activities

In October the organizational meeting of the German Club was held. With the election of officers, the supervision of Mr. Skay, and the framing of the constitution, the activities of the German Club began.

At each meeting one of the members presented a reading in German to the Club and thus the real purpose, to promote German and the German language, was accomplished. Also, at several meetings films of Germany were shown.

During the Christmas holidays, the German Club members visited several homes in the community and sang German carols. Everyone was busy during December learning the carols and practicing in the instrumental group which accompanied the carolers.

The month of February was filled with excitement and preparations for the school carnival which was

held in March. The German Club conceived the idea and various other organizations within the school joined in to make the carnival a success.

With the numerous activities and events, the first year of the Alta German Club ended in success.

Science Club Activities

The Science Club was formed by the high school students and their advisor, Mr. McCoy. The students meet to expand and broaden their knowledge and interest in science.

Club meetings are held once each month. At each meeting there is a business meeting and a report by one of the members. The report consists of a lecture and demonstration.

Members attended the Science Fair at Des Moines.

Junior Class Play

Headin' for a Weddin'

The Junior Class Play, "Headin' For a Weddin'," was presented November 10, 1961 in the form of a farce.

Problems arose in the hillbilly Hollowbone family when Homer (Nathan Peterson) started corresponding with an Eastern debutante, Melissa Dugan (Karen Hinkeldey), whose picture he saw in a newspaper. Things began moving when Melissa, in search of her fiance's mansion, stumbled into the Hollowbone cabin with her two old maid companions, Hortense and Isabel Todd played by Candace Anderson and Norma Lichtenberg.

The three-room cabin was shared with the Blair-house family which presented more complications as a family feud develops.

Just when things looked worst, Melissa and Homer iron out their differences and all problems find themselves solved.

Candace Anderson and Marilyn Murphy received awards for their portrayals of Hortense and Mrs. Hollowbone.

FFA Activities

The F.F.A. is a national organization of young men interested in farming.

The members are required to have a supervised farming project of either crops or livestock.

The teams such as the judging team help the club members to evaluate animals, crops, and soils. On the parliamentary procedure team, the boys learn and practice how to conduct meetings. They put on a demonstration on how to conduct a meeting at the Parent-Son Banquet.

Senior

As a tribute to the Senior Class of 1962, the Juniors honored them with a banquet and prom on April 14, 1962.

The theme, Aloha Hawaii, was carried out in the dining hall using rose and morning glory vines on the front wall, French doors, travel posters and a huge framed map showing the islands. A beautiful floral arrangement decked the head table. The palm trees plus the hula girl nutcups also brought out the theme at each individual table. An exotic meal was served by Juniors' mothers. Everyone was served most graciously by twelve members of the sophomore class.

Junior- Banquet

The hall portrayed to the fullest, Hawaii in all its enchantment and beauty. The flowing waterfall, the volcano, the flower gardens, the pineapple plantation, and the grass huts all added to the grandeur of the evening. The traditional luau was presented in song and dance by the Freshman and Sophomore classes. Music throughout the evening was presented by the Knightbeats.

Students and faculty members alike enjoyed their trip to the islands immensely, even if it was for only one night.

Homecoming Activities

Homecoming highlighted our 1961-62 football season and was held September 29.

All classes began the week working and striving for a first place float.

During the week a king, queen, and attendants were chosen. Queen Sally and King Robert reigned over the Homecoming activities which took place all week.

Thursday evening the traditional pep rally and bonfire were held. Pep talks were given by the king, queen, and coaches.

Rain! Reign! Rain! was the order for the Friday afternoon Homecoming Parade through Main Street. The business houses added their floats to make a bigger and better parade.

Friday, although the fog had set in for a damp evening, the Cyclones' spirits were high and we won our game against Sutherland.

During the half-time show, the king and queen were crowned.

Topping off the Homecoming activities was the annual Homecoming Dance.

"Mr. Coed"

"Mr. Coed" was presented by the Senior Class on March 30, 1962.

The hilarious plot of the play consists of an extreme situation--that of a man in woman's clothing. A conflict arises when a western character by the name of Lotus Smith played by David Wolfe tries to adjust himself to the sedate environment of an Eastern College.

Linda Sandine, Lizabeth Peters, and Judy Jones were cast as Bernice, Carol, and Ruby, who were typical students at Cedar Hill College. Various employees at the college were Miss Eustacia Hayworth

(Marcia Hutton), who was president of the college; Miss Pooley (Sally Carpenter), a physical education teacher; Miss Carr (Janet Smith), who taught poetry; and Homer Quakenbush (Robert Radke), an elderly custodian.

Marva Dierenfeld, cast as Cobina Colgate Brewster, and Daniel Smith, as Gilbert Glycer, were two influential arrivals from England. A freshman, Emily Manning, who was attending school on a scholarship was played by Jean Mangold, and a prospective buyer of the college, Mr. Oliver, was played by Roger Anderson.
